

Local Pages

Create a web page for every store location to boost your visibility and search ranking, and turn online visitors into in-store customers.

Features

- Fully customizable and responsive
- Real-time updates via dashboard
- SEO optimized pages with built in schema.org
- Unique URL for every location
- GeoIP technology detects visitor's location
- keyword optimization and performance tracking
- SSL fully-hosted CNAME structure
- Add social links to drive customer engagement
- Local review integration

Benefits

Promote Unique Content

Provide customers with valuable location information like store details, coupons and special events.

Boost Your SEO

Always be present where customers are searching with mobile-optimized pages and a clean, responsive design.

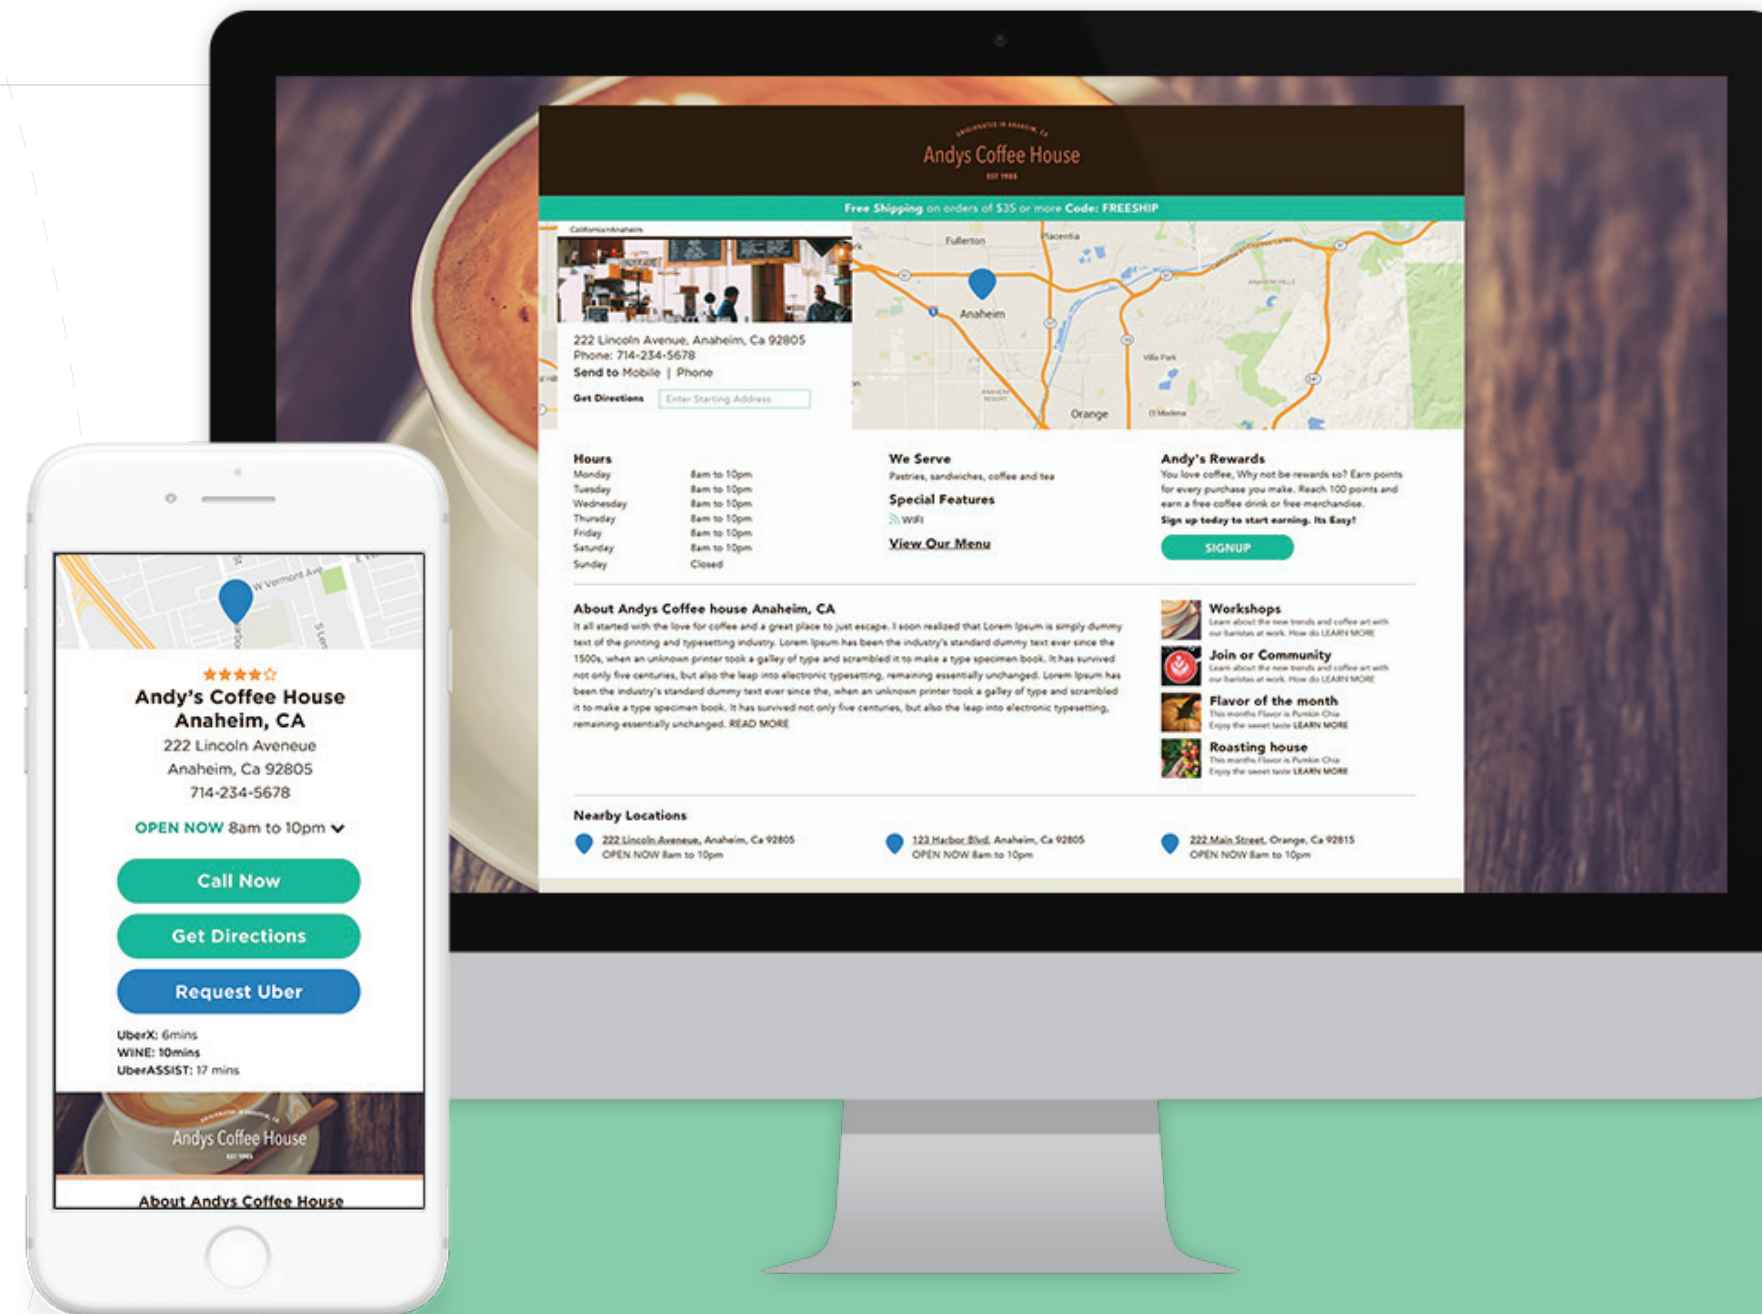

Lead Generation

Generate leads by integrating contact request forms, appointment scheduling and more.

Frictionless Customer Experience

Leverage existing partnerships - like Uber and GrubHub - to make it easy for customers to interact with and purchase from your store.

Why Brandify?

- Quarterly SEO reviews to ensure highest search ranking
- Continual optimization to keep you at the forefront of the latest trends
- Highly customizable design for seamless integration
- Built with SEO best practices
